

STAINES SITE DUMPER

Our Staines Standard Site Dumper features a heavy duty RHS chassis, mounted on commercial 10 stud axles and a tandem suspension. To help protect from wear and tear our Staines dumpers are built with 5mm sides and 8mm floor sheets, for extra durability check out our [Hardox Tube Dumper](#). An extensive tipping angle is achieved via our 3 stage hydraulic cylinders, making them the perfect tipping dumper.
