

STAINES UNIVERSAL DUMPER

Our Staines universal dump Trailer features a heavy duty RHS chassis, mounted on commercial 10 stud axles and a tandem suspension. To help protect from wear and tear our Staines dumpers are built with 5mm sides and 8mm hot rolled floor sheets. An extensive tipping angle is achieved via our 3 stage hydraulic cylinders, making sure to not leave anything behind. With optional upgrades to extend your sides higher and to add a hydraulic tipping rear door, you can really personalise this dumper to fully meet your individual needs.
