

## DROP DOWN LOW LOADER TRAILER

Our Staines single axle drop deck low loader trailer is designed so the bed of the trailer lowers to the ground enabling an easy and quick loading of implements, small crawlers and small diggers with a max 8t load weight. The design of this trailer means you can load your equipment from the front or side, with optional ramps to aid in loading low ground clearance vehicles. Raised and lowered using two tipping cylinders at the rear, this allows the trailer to be lowered 2ft to be flush with the floor, while in park mode.
